

SAFIQUL ISLAM

Personal Data

Citizenship: Norway and Bangladesh
Languages: English and Bangla - Fluent in both verbal and written
Norwegian: Very good reading and writing skills; got A in Level 3
Email: safiqui@ifi.uio.no
Website: <http://heim.ifi.uio.no/~safiqui>

Education

- 2017 Doctor of Philosophy
Networks and Distributed Systems Group, Department of Informatics
University of Oslo, Norway
Thesis: "Lightweight and Flexible Single-Path Congestion Control Coupling"
Supervisors: Professor Michael Welzl and Professor Stein Gjessing
defense passed on 3 July 2017 at the University of Oslo
Opponents: Professor Joerg Ott and Assoc. Professor Colin Perkins
- 2010 Master of Science in Information and Communication Technology
Major: Internetworking
Royal Institute of Technology - KTH, Sweden
Thesis: "HTTP Video Streaming Server with Dynamic Advertisement Splicing"
Supervisors: Professor Gerald Q. Maguire Chip Jr. (KTH), and Ignacio Mas (Ericsson)

Work Experience

- | | |
|------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>March 2020</i> | The Institut supérieur de l'aéronautique et de l'espace and TeSA Laboratory, Toulouse, France
<i>Visiting Researcher</i>
Worked on the usage of ML on network coding with Professor Emmanuel Lochin

website https://www.tesa.prd.fr |
| <i>March 2018 - February 2022</i> | University of Oslo
<i>Postdoctoral Fellow</i>
Identifying and addressing exciting use cases for Machine Learning applied to networking; writing project proposals; taking undergraduate (IN3230 Computer Networks, FALL 2019), master and PhD courses (IN 5150/9150 (seminar on Recent Advancements in Internet Protocols); and supervising master students.

website http://www.uio.no |
| <i>August 2017 - February 2018</i> | University of Oslo
<i>Researcher</i>
Worked towards developing TCP congestion control coupling for H2020-NEAT EU project. NEAT is a flexible service-oriented Internet transport layer API aiming to facilitate the evolution of Internet's transport layer in long-term.

website http://www.uio.no |
| <i>October 2012 -</i> | University of Oslo |

July 2017	PhD Research Fellow
website	<p>Worked on identifying and combining the congestion controllers for flows sharing a common bottleneck. In addition, I was also a teaching assistant of Introduction to Operating Systems and Data Communication course.</p> <p>http://www.uio.no</p>
August 2015 - August 2016	University of Oslo and Huawei Technologies Ltd
	Researcher
website	<p>Proposed and implemented single path TCP congestion control coupling using TCP-in-UDP encapsulation at the IETF TCPM and IRTF ICCRG working groups.</p> <p>http://www.uio.no</p>
April 2012 - till date	Daffodil International University, Dhaka
	Senior Lecturer (on study leave)
website	<p>Teaching Computer Networks, Data Communication, Cryptography and Network Security, and Communication Engineering. Also, responsible for supervising bachelor thesis and internship.</p> <p>http://www.daffodilvarsity.edu.bd/cse/index.php</p>
Jan 2011 - Mar 2012	Daffodil International University, Dhaka
	Lecturer
website	<p>Teaching Computer Networks, Data Communication, Cryptography and Network Security, and Communication Engineering. Also, responsible for supervising bachelor thesis and internship.</p> <p>http://www.daffodilvarsity.edu.bd/cse/index.php</p>
Sep 2009 - Mar 2010	Ericsson Research, Stockholm
	Master's Thesis
website	<p>Proposed and implemented a proxy HTTP streaming server that supports dynamic advertisement splicing. Implemented using J2EE and Python.</p> <p>http://www.ericsson.se/</p>
Jan 2009 - Mar 2009	TSLAB at KTH, Stockholm
	Project Coach
website	<p>Worked as a project coach for a project team.</p> <p>http://www.tslab.ssvl.kth.se/csd/projects/0911130/</p>
Aug 2008 - Jan 2009	TSLAB at KTH, Stockholm
	Network Engineer and Asst. Project Manager
website	<p>Worked towards the consolidation of a package and a business case to implement Open Source Networking (OSN) in Africa. Applied the packages in the redesign of the network at the Dodowa Health Research Center in Africa. Designed the network topology and implemented 802.1x port based authentication and web based authentication using a single radius server. Configured all the network services(including DNS, DHCP, FTP, Nagios).Worked as a team leader for assigning tasks. Developed a Wiki for the technical tasks to convey milestones to the open source community.</p> <p>http://www.tslab.ssvl.kth.se/csd/projects/0821116/</p>
Mar 2007 - Aug 2007	ReliSource Technologies Ltd, Dhaka, Bangladesh/Boston, MA, USA
	Software Quality Assurance Engineer
	<p>Used enVision tool and provide continuous and ongoing support to add and modify the logging messages generated by the vendor specific network devices. enVision is data-driven that use XML device-specific message files to describe the device log messages, and vendors issue frequent updates.</p>

website	http://www.relisource.com
Sep 2006 - Feb 2007	DNS Satcomm Ltd., Dhaka, Bangladesh <i>NOC (Network Operation Center) Engineer</i> Installation and administration of Point-to-Point radio links of the POP's. Configuration and Administration of router, switch, VPN, and firewall. These tasks included: Network traffic analysis, network troubleshooting. ISP (NAT, Proxy, Web, Mail, DNS, Bandwidth Manager, DVB, MRTG) setup. Administration of servers reserved by NOC.

Project Experiences

- | | |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2016-2018 | Participant of EU-Horizon 2020 “NEAT” (work packages 3 and 4) |
| 2015-2016 | Technical lead of “OpenTCP” project with Huawei, China |
| 2012-2015 | Participant of EU-FP7 “RITE” (work package 1) |
| 2008-2009 | Project leader for an open source project of Communication System Design Course KTH, towards the consolidation of a package and a business case to implement Open Source Networking (OSN), and redesign of the network at the Dodowa Health Research Center in Africa. |

Scientific Review and Community Services

1. Reviewer for IFIP/NETWORKING 2020, ACM Transactions on Multimedia Computing, Communications and Applications (TOMM), Elsevier Computer Networks; IEEE LAN-MAN, IFIP Networking Future of Internet workshop, ACM SIGCOMM 2017 Posters and Demos, RNDM, EPIQ, Packet Video workshop.
2. TPC member of IFIP Networking Future of Internet workshop (FIT) and International Conference on Ambient Systems, Networks and Technologies (ANT 2018).
3. Reviewer of several drafts in the IETF RMCAT WG.

Teaching

1. Fall 2020: IN 5150 (master) / IN 9150 (PhD)—Recent Advancements in Internet Protocols, Department of Informatics, University of Oslo
2. Fall 2020: IN 3230 (undergrad) / IN 4230 (master)—Computer Networks, Department of Informatics, University of Oslo
3. Fall 2019: IN 5150 (master) / IN 9150 (PhD)—Recent Advancements in Internet Protocols, Department of Informatics, University of Oslo
4. Fall 2019: IN 3230 (undergrad) / IN 4230 (master)—Computer Networks, Department of Informatics, University of Oslo

5. 2013-2016: INF1060—Introduction to Operating Systems and Data Communication, Department of Informatics, University of Oslo
6. 2011-2012: Undergraduate courses in Computer Networks, Data Communication, Discrete Mathematics, and Computer Architecture; supervised undergraduate students, Department of Computer Science and Engineering, Daffodil International University, Bangladesh
7. 2009: Project Coach for a master course project of Communication System Design course at Royal Institute of Technology (KTH), Sweden.

Supervision

PhD students

1. with Professor Michael Welzl and Professor Stephan Oepen: *Alina Zhiltsova—NLP applied to Internet protocol design* (starting from Fall 2020)

Master Theses

1. with Professor Michael Welzl: *Kristian Hiorth—TCP-in-UDP: Enabling gradually deployable TCP coupled congestion control using an efficient UDP encapsulation*
2. with Professor Michael Welzl and Runa Barik: *Lepe Khanum—A C implementation of the fling measurement tool*

Master Theses Examiner

1. Examiner of Master thesis: *Rabbir Bin Rabbani—Advanced Deep Learning for Whale detection in VHR Satellite Images* ; Department of Electrical Engineering and Computer Science, University of Stavanger, Norway.
2. Examiner of Master thesis: *Michael Gundersen—NEATpy: A Standards-Conformant Protocol-Independent Transport System* ; Department of Informatics, University of Oslo.
3. Examiner of Master thesis: *Asad Ahmed—Extending TCP for Low Round Trip Delay - Logarithmically Scaled Additive Increase Multiplicative Decrease (LS-AIMD)* ; Department of Informatics, University of Oslo.

Talks

1. Performance Evaluation of In-network Packet Retransmissions using Markov Chains, IEEE ICNC 2020, Big Island, Hawaii, 17 February 2020
2. How to Control a TCP: Minimally-Invasive Congestion Management for Datacenters, CNC'19 workshop, IEEE ICNC 2019, Honolulu, Hawaii USA, 18 February 2019.
3. Lightweight and Flexible Single-Path Congestion Control Coupling, IEEE/IFIP NOMS 2018 Dissertation Session, Taipei, Taiwan, 26 April 2018.
4. TCB Control Block Sharing: 2140bis , 17 July 2017, TCPM, 99th IETF meeting, Prague, Czech Republic.
5. Lightweight and Flexible Single-Path Congestion Control Coupling , PhD Defense, University of Oslo, Norway, 3 July 2017.
6. Distributed Ledgers and their application to Internet Protocols PhD Defense Trial Lecture, University of Oslo, Norway, 3 July 2017.

7. TCP-CCC: single-path TCP congestion control coupling (draft-welzl-tcp-ccc-00), 15 November 2016, ICCRG, 97th IETF meeting, Seoul, South Korea.
8. OpenTCP: Combining Congestion Controls of Parallel TCP Connections, IEEE IMCEC 2016, Xi'an, China, 4 October 2016. **Best Presentation award**
9. Start Me Up: Determining and Sharing TCP's Initial Congestion Window, ACM, IRTF, ISOC Applied Networking Research Workshop 2016 (ANRW 2016), Berlin, Germany, 16 July 2016.
10. Managing Real-Time Media Flows through a Flow State Exchange, IEEE NOMS 2016, Istanbul, Turkey, 26 April 2016. Updates on Coupled Congestion Control for RTP Media (draft-ietf-rmcat-coupled-cc-01) , 6 April 2016, RMCAT, 95th IETF meeting, Buenos Aires, Argentina.
11. TCB sharing: RFC 2140 vs. reality (draft-welzl-tcpm-tcb-sharing) , 5 November 2015, TCPM, 94th IETF meeting, Yokohama, Japan.
12. Coupled Congestion Control for RTP Media (draft-ietf-rmcat-coupled-cc-00) , 6 November 2015, RMCAT, 94th IETF meeting, Yokohama, Japan.
13. Coupled Congestion Control for RTP Media (draft-welzl-rmcat-coupled-cc-05) , 20 July 2015, RMCAT, 93rd IETF meeting, Prague, Czech Republic.
14. Coupled Congestion Control for RTP Media (draft-welzl-rmcat-coupled-cc-04) , November 12, 2014, 91st IETF Meeting, Honolulu, USA.
15. Coupled Congestion Control for RTP Media, ACM SIGCOMM Capacity Sharing Workshop (CSWS 2014), 18 August 2014, Chicago, USA. **Best Presentation award**
16. Coupled Congestion Control for RTP Media, August 1. 2013, 87th IETF Meeting, Berlin Germany.

Awards and Scholarships

- Kristine Bonnevie Stipend for visiting researcher in Tesa Laboratory, Toulouse, France. from Mar 2020 - May 2020.
- Best paper award at the ACM SIGCOMM Capacity Sharing Workshop, 2014.
- Best paper and presentation award at the IEEE IMCEC 2016
- NordPlus Scholarship for exchange masters student in Helsinki University of Technology.
- Research Fellow in Service Layer Technology, Ericsson Research, Stockholm.

Languages

- Fluent in English and Bengali; both verbal and written.
- Norsk: Very good writing and speaking skills. (got A in Level 3 which is equivalent to B2).
- Confident public speaker - including multimedia presentation.
